

Manali Manoj Aundhkar

Title: A4 Analyst/Software Engineer
Training Location: Mumbai, Maharashtra, India
Email ID: manali.aundhkar@capgemini.com
Mobile: 9511872678

Profile

- Experience in application development using C, C++, Core Java and CSharp
- Experience in Algorithm designing
- Sound knowledge of operating systems internals
- Good analytical and problem solving skills
- Strong coding ability both in producing clean and efficient code as well as debugging and understanding large code bases

Experience Summary

Software Engineer with an experience of more than 2 years in the application development. Working experience of a freelancing project since August 2021. Good knowledge of Operating System Internals and native programming languages like C, C++. Passionate to gain more knowledge to its core.

KEY SKILLS:

- **Functional:** Team Building, Project Management, Team Leader, Development, Good Communication and Interpretation skills
- **Technical:** Linux & Windows System Programming, C, C++, Core Java, CMS tool (WordPress)

Experience

01 Type of Industry: Software

Project Description: **Veg_O_Meals**

Worked on a US based project from August 2021. The project is a web-based application developed for a restaurant named Veg_O_Rama in Michigan, USA. The restaurant is launching new idea of meal delivery services on a web-based platform for its customers. So, the main aim of the project is to develop an application that will help customers to book meals online.

Project Link: <http://veg-o-meals.com/>

Role/Title: Software Developer

Project Duration: August 2021 – Present

Responsibilities:

- Worked on designing & developing the meal menu
- Created different templates, added different plugins and worked on them
- Created product pages/meal menu pages by using plugins such as WooCommerce

Software / Languages: CMS tool (WordPress)

Training

Recently received a very good training from Capgemini where the vendor was NIIT. It was on .Net Core where they taught CSharp programming language, .Net Framework, MS-SQL, Entity Framework, ADO .Net, ASP .Net, .Net Core MVC, .Net Core Web API, Code First Approach & Database First Approach. Also one project was accomplished during the training period.

Project Description: **Airline Reservation System**

This project is developed for customers who want to book online airline tickets. It is developed using Dot Net Core MVC & Dot Net Core Web API, MS-SQL.

Role/Title: Developer

Modules Completed: Booking Module

Responsibilities:

- Developed the booking module
- Worked on backend as well as frontend
- Designed the database for booking modules

Software / Languages: .Net Core MVC, .Net Core Web API, MS-SQL Server, Programming language - CSharp

College Projects

Project Name : Employee Database Management System

Technology : C Programming

Description :

- This project is used to manage employee database.
- This project is written in C programming language. The project maintains a Data Structure known as Doubly Circular Linked List. Each node of a Linked List maintains all the information of the employee.
- We can insert, delete, count, display employee's information. We can also search employee by his name, id, city, etc.

Project Name : Alphabet pattern printing

Technology : C Programming & C++ Programming (written in both languages separately)

Description :

- This project aims at displaying the alphabets using pattern printing concept.
- This project is written in C programming language as well as completed the same code in C++ programming language.
- The motive behind this project is to understand the concept of pattern printing and analyze, learn and implement complex nested "for" loops.

Certifications

Fundamentals of Computers Seminar by Dr. Vijay D. Gokhale Sir – AstroMediComp , Pune (Conducted on 29th & 30th January 2022)

- **First Name :** Manali
- **Middle Name :** Manoj
- **Last Name :** Aundhkar
- **UID :** FND-2022-9ZG43R6INC
- **Certificate Link :** <https://astromedicomp.org/Certificate/ValidateCertificate.php>
